Get Expert Help for Your Sites Instantly

mySites.guru subscribers get direct access to Phil Taylor for fast expert help with any Joomla or WordPress problem - set fees, no ticket queues.

Phil E. Taylor | 28 August 2026

Got a WordPress or Joomla problem and need expert help today? Phil Taylor is available for hire with set fees over at fix.mySites.guru.

Phil is the developer behind mySites.guru and a long-term contributor to WordPress, Joomla, and Symfony - some of the biggest open source projects around.

Is your site broken? Hacked?

Get immediate help to fix your Joomla or WordPress site today. Phil Taylor, founder of mySites.guru, charges **set fees** to fix sites - not hourly rates.

What Is Included?

A typical fix request covers one or more of the following:

- Fix of your hacked site
- Upgrade to the latest version if needed
- Debug and fix PHP error messages
- Debug and fix White Screen of Death
- Debug and fix a specific issue you describe
- Investigation of a web hosting issue, with report
- Fixing PHP configuration and settings
- Debugging error messages and site crashes
- Advice and consultancy on the issue

Set fee charged, not per hour: most smaller issues are a one-time set fee of GBP 120.

Non-subscribers get a **free month of mySites.guru** included with every fix. All results are explained in plain English, and your credentials are encrypted and timeboxed.

Same-day resolution on average.

What Don’t We Do?

- Ongoing project work
- Website builds from scratch
- Plugin or extension development
- Template design (contact Lee Tempest for that)

Who Is Phil Taylor?

The person behind this service is Phil E. Taylor, founder of mySites.guru and long-term contributor to the Joomla project, WordPress, and Symfony. Phil’s strongest skill is debugging - getting to the root of a problem. Once the root issue is identified, the fix is normally straightforward. That experience is why he can offer a set fee rather than open-ended hourly billing.

When your team has hit the limit of what they can figure out - after several days of head-scratching or when people are out of their depth - that’s when to get in touch. Submit a request through the secure work request form and Phil can get started the same day.

Frequently Asked Questions

How much does Phil Taylor charge to fix a hacked or broken site?

Phil charges a one-time set fee of GBP 120 rather than hourly rates, so you know the cost upfront with no surprises.

What types of problems can Phil Taylor fix?

Phil handles hacked sites, PHP errors, White Screen of Death, site crashes, hosting investigations, and PHP configuration issues - but does not take on new builds or extension development.

Do I get anything else when I hire Phil to fix my site?

Yes, non-subscribers receive a free month of mySites.guru along with the fix, and all results are fully explained in plain English.
